

CITY FORCES
\$2.25 GAS RATE

(Continued From Page 1)

should refuse to accept this tax until a final settlement of the present gas controversy, but I want to be clear on this question. I do not say or attempt to say that the court will cancel franchise with J. R. Connelly, his heirs, successors and assigns, because of the non-payment of said tax on its due date.

Question Undecided
This is a question that has not as yet been decided by our Texas courts, neither am I able to find a case cited by the supreme court of the United States involving a case of this kind, and it occurs to me as being a new proposition which will have to be passed upon by our courts before any person can within any degree of certainty be positive as to the results of the non-payment of the tax as provided in our franchise.

Following the reading of the opinion, Mayor Logan asked Mr. Wistner if it was his advice then to return the gas company check.

WISTNER: In case of a court fight, why shift off any of the leverage that you've got?

Mr. Wistner to Co-operate
LOGAN: How do we know he will not accept our ordinance?

POTTE: We read in the papers where he says his proposition must be accepted in full.

LOGAN: I'd be willing to drop all of these things if he would meet us half way. But if he bristles up again, I'll say go to court.

WISTNER: Gentlemen, you won't have a gas company here if you go into court with this thing. You have got to make concessions.

LOGAN: Don't you think we are making them?

WISTNER: I believe Low would have submitted a \$2.25 rate if he had had a reduced tax and more consumers. He would have done this instead of his \$2.40 rate.

Wistner's Warning
POTTE: The committee promised him everything during this line. Then he came back with that iron-clad proposition that he was to do all the work and that a plumber could not lay any pipe.

WISTNER: When you get into court you will find that the court does not deal in futures. This commission might favor a reduction in taxes. The next might do the same thing. But the court will only pass on conditions as they exist on the day upon which the injunction is sued out.

Mr. Wistner said he thought the case is bound for "federal court as straight as an arrow" if the new ordinance is enforced.

POTTE: It's bound there anyway.

WISTNER: If it is all right, I'm with the commission.

Wistner's Position
LOGAN: Mr. Wistner do you mean to say that the commission and the citizens gas committee did not treat the gas company fairly?

WISTNER: I did not say that. I did say that I said that the \$2.25 rate would not be upheld. I do not mean to convey the idea that I think the gas company was treated unfairly.

Mr. Low will take Burns and McDonald's report into.
LOGAN: Well, I want to tell you, Mr. Wistner, that the commission is perfectly willing to pass a resolution in favor of seeing that he gets a cut in taxes if he turns in a fair rendition. Or even if he puts it up, it could

be cut down. The committee has agreed to do all in its power to help him get more consumers.

Mr. Logan said he did not see any reason why the ordinance should not be passed.

WISTNER: I say by all means to pass an ordinance.

LOGAN: Then if it is agreed to by you and Mr. Potte and Mr. Wade I favor the ordinance.

WISTNER: All right if we are going to have litigation, I say let's have it and get over with it.

POTTE: What about cancelling the franchise?

LOGAN: Pray for that if the petition pray for everything.

WISTNER: Yes, Make that a part of your prayer.

LAUGHTER.
WISTNER: If Low enjoin that rate it is bound for court and the company for receivership. People are going to quit the company if there is a litigation.

"Cash Checks"—Potte
POTTE: Yes, you're right. The people have been waiting for a settlement.

LOGAN: Will we give up part of our share by taking those checks?

WISTNER: (Hesitates.) I've never seen a case with so many angles to it before in my life.

POTTE: Cash those checks. That's about all you'll ever get out of it.

WISTNER: No, don't do that. I'll make good the \$2.25 if you lose it.

POTTE: Well, can we take the franchise away?

WISTNER: My God, man! There's not a man in the world who can answer that.

POTTE: I'm not trying to put you on record. Just give us your ideas.

Wistner started to answer but was interrupted.

POTTE: Wistner, I believe you believe that we are going to court after this ordinance is passed?

WISTNER: Yes, I do.

POTTE: Then what about the check?

WISTNER: Send the check back. It is returned, send it back again and keep on sending it back.

POTTE: What about the franchise?

WISTNER: If the commission wants to cancel the franchise, I would be in favor of that.

LOGAN: I'm in favor of the \$2.25 rate even in the event of a fight.

It was then suggested that copies of the proposed ordinance be mailed to members of the citizens gas committee.

POTTE: Also send one to both Mr. Low.

LOGAN: We'll give it the first reading tomorrow. Is that agreeable to you, Mr. Wade?

WADE: Yes.

10 WOMEN ESCAPE FROM REFORMATORY
KANSAS CITY, Mo., March 7.—Ten women escaped from the municipal reformatory here during the night. The women escaped through a second story window, after sawing through a set of iron bars.

ASPHALT POURED
Asphalt was poured on Beaumont this morning from Fourth to Procter street.

Within a few days several blocks of completed paving will be opened for traffic.

PAROLE SYSTEM
IS UNDER FIRE

(Continued From Page 1)

House Probe Makes Report On Gainesville School

AUSTIN, Texas, March 7.—The special house committee investigating the state reformatory institutions in a report filed with Speaker Searles today on its investigation of the girls training school at Gainesville recommended stricter discipline and abolition of the parole system for inmates of the school.

The policy of paroling or transferring girls from the school to other reformatory institutions is the source of most of the criticism and urged that girls on parole be recalled and the practice be discontinued. Under no circumstances should girls be paroled outside the state.

The committee found Dr. Carrie Weaver, Smith superintendent, and other officials able and fit, from the theoretical viewpoint, but said "they fail to apply practical methods in the proper degree."

"They are to be commended for their high ideals, but at the same time they are subject to criticism when they attempt to apply to abnormal or sub-normal girls the same methods which would be proper with normal girls," the committee reports.

40 SHIPS, 1305 MEN IN DISTRICT

Immigration Commissioner Makes February Report

Seven passenger and all American came into Sabine district ports aboard ships during the month of February, according to a report issued today by F. R. Blawie, U. S. immigration commissioner, for this district.

The immigration officials boarded 40 ships, the February report states. Of them 19 Port Arthur, seven at Beaumont, two each at Orange and Sabine, and one at Port Neches.

Of these 40 vessels, 29 were United States ships, 13 British, one Spanish, one Danish, two Norwegian, one Canadian and one French.

Officers and men carried by the ships numbered 1,305, the report states. Aboard one ship entering were 133 Chinamen, who were refused permission to land. The report further shows that two stowaways were turned over to immigration officials in the district last month.

Passion Week Revival

The mid-week service this evening at the First Christian church will be devoted to preparatory services for the Passion Week revival.

"The Prayers of the Old Testament" will be the subject discussed during the evening, and several interesting talks will be made on the great prayers found in the Old Testament. This evening's service will begin at 7:30 o'clock, and will close promptly at 8:30 o'clock.

WISTNERS OPINION
ON GAS FRANCHISE

(Continued From Page 1)

of this one-eight of one per cent is sufficient to warrant the city to cancel its franchise. I entertain considerable doubts. The courts have held that misfeasance or non-feasance in order to constitute grounds for forfeiture must be willful in character.

There must be a manifest disregard of duties in important particulars. The failure to comply with trivial matters or to perform minor duties will not be ground for forfeiture where the object of the grant is not perverted.

"Faults which are not serious and which have not been persisted in for a considerable period of time will not be sufficient grounds for the forfeiture of the franchise. For instance, such as delay for a limited period of time of the payment of money as in this instance. The court in the case of *Clayton vs. Missouri R. R. Company*, 78 Kansas 102, held that a delay for a limited period in the payment of money is not a sufficient ground upon which to predicate a forfeiture of a franchise.

Forfeitures Not Favored
"The city must wear in mind that forfeitures are not favored by the courts."

"I have come to the conclusion that a forfeiture will not be entered or the contract cancelled where the failure to comply with the terms has been accidental."

"A reasonable cause can be shown for exceeding the same, but only when it appears that the will of the people there has been a continued purpose on the part of the grantee."

"The city in accepting the grantee's attitude as a deliberate intention to violate the contract."

"The law does not look with favor on forfeitures. If another remedy is available by which the city can obtain just redress, an amendment of the contract will not be decreed."

Wistner cited a case in this connection.

"The courts have hesitated to cancel franchises of public utilities where continuance to serve the people would result in harm or injury to the public. But in a matter of this kind, where the gas company is furnishing the community with gas."

"The extent of the city's injury can only be measured by the legal rate of interest on the sum of \$28,500 for and during the period from Feb. 1 until said payment has been made."

"The city, nor the inhabitants of the city, have suffered any injury other than the legal rate of interest on this sum of money for that period of time."

"I am not going to attempt in this opinion to say whether or not non-payment of said franchise tax is sufficient to warrant a cancellation of the gas company's franchise. It does occur to me, however, that in the event that the city should decide to cancel the franchise, that it would proceed by quo warranto proceedings."

Urges Refusal of Tax
"Citing the gas company to appear and show cause why it should continue to use the streets of the city of Port Arthur and after same had been brought before the court, I am unable to say what disposition of this would make of a proposition of this kind, but I can say as a matter of fact that inasmuch as the courts do not favor the cancellation of franchise."

that you go into court at a great disadvantage.

"In conclusion, however, I will say that inasmuch as the present gas situation is not settled, that no harm can be done by refusing to accept this tax at this time and I now advise you that it is my opinion that you should refuse to accept this tax until a final settlement of the present gas controversy."

BULLET IN BOY'S BRAIN 7 YEARS CAUSES DEATH

PELIC, Ind., March 7.—The death of George Dollar, 16, at the home of his grandfather on a farm near Anderson, recalls a tragedy at May, this county, seven years ago, when George Dollar, crized by the death of his wife, killed three members of his family, wounded his 7-year-old son, George, Jr., and then went to the grave of his wife and killed himself. George, Jr., had carried two bullets imbedded in his skull since that time and then died from an injury to his brain caused by one of the bullets, which had been touching the brain.

BABBLE DELAYS
WOMEN'S TRIAL

(Continued From Page 1)

'Little Poland' Gathers in Bluebeard Case

CHICAGO, March 7.—A holiday was added to the calendar of Little Poland here today as the popular sought points of vantage at the trial of two alleged "female bluebeards."

Court opened amid a babble of foreign tongues. Children of all ages gathered through the court and crowded hallways.

At each question of attorneys, examining prospective jurors, the babble broke into life and the proceedings were delayed.

Occupying the center of the stage were the two defendants, Mrs. Nellie Konik and Mrs. Tillie Klinek, charged with murder in connection with an alleged series of "poison parties," which claimed the lives of at least six and resulted in the agonous illness of a score more. The poison victims were served to husbands, children, relatives and friends, the state charged.

WOMEN'S TRIAL
The trial of the two women was held at the St. George's Episcopal church, Fifth and Stillwell boulevard at 7:30 o'clock.

Rev. L. B. Frank, rector, will deliver the address, and a large attendance of the members and friends of the church is expected this evening.

BEAUMONT PAYING TO
START WITHIN MONTH

(Continued From Page 1)

BEAUMONT, Texas, March 7.—With a contract awarded the Uvalde Rock Asphalt company Tuesday on its bid of \$200,000 for paving the streets ordered in the bond issue of two years ago, a start on the paving program will be made within the next 30 days, according to officials of the paving concern.

The awarding of the contract to the Uvalde company followed a wordy struggle in the city commission Tuesday between this concern and the Houston Construction company, submitting a bid of \$198,046.47 for sheet asphalt paving of the Texas Company.

A unanimous vote in favor of the Uvalde concern, made up entirely of Beaumont men and capital, was recorded by the city commission.

At each question of attorneys, examining prospective jurors, the babble broke into life and the proceedings were delayed.

Occupying the center of the stage were the two defendants, Mrs. Nellie Konik and Mrs. Tillie Klinek, charged with murder in connection with an alleged series of "poison parties," which claimed the lives of at least six and resulted in the agonous illness of a score more. Fandom Meets Tonight to Perfect City Twilight League

**Prospects of Baseball Park Loom Bright When
Craig Presents Petition to City Dads Calling
For Election On Question**

TONIGHT at 7:30 o'clock ball fans from every section of the city will gather in the Chamber of Commerce auditorium to discuss plans for the organization of a city twilight league.

The prospects of a local league rose several hundred per cent yesterday afternoon when a petition bearing 605 names calling for an election to vote on a baseball park for Port Arthur was submitted to the City Dads by W. Y. Craig.

The petition has been in circulation on the streets of Port Arthur for several weeks past, and it is understood that Mr. Craig and other business men, in the event the election is favorable, will secure a site on lands along Lake Shore drive, between Augusta avenue and Stillwell boulevard for the location of a permanent ball park.

The park, as explained by Mr. Craig, would be used for both football and baseball games, and would be so arranged as not to detract from the appearance of Lake Shore drive, but, in fact, to enhance the value of property in that vicinity.

The spot described by Mr. Craig in the petition is the place, now known as "Lake Shore park," and which, he pointed out yesterday to the commissioners, is city in the city charter as being dedicated to the public for park and amusement purposes.

The city commissioners will probably vote on the date of the election this afternoon, and it will be known by tomorrow at what time the election will be called. It is believed that in view of the rapidly approaching baseball season, the date will be set as early as possible, in order that Mr. Craig and others interested may begin construction on the place at once.

This step by the business men of Port Arthur comes as an acceptable and agreeable surprise to the baseball players and fans, and will be received with pleasure during the meeting of league proponents this evening, at which time it will be explained in detail by Mr. Craig.

At the same time, the fans and players will discuss the size of the league, and will probably perfect an organization tonight to have charge of the affairs of city baseball during the 1923 season.

Many players are here this season, and are beginning to "limber up" in anticipation of a long season at the national pastime; prospects are good for an excellent organization, and with the possibilities of a park arising to offset the age-old problem of "Where will we play when we organize?" and "What do we get for our efforts?" a city twilight league should be conducted on both a profitable and a successful basis this year.

Every ball fan, player and business man in Port Arthur is invited to attend the meeting this evening.

WITH THE SCRAPPERS HERE AND THERE

SIGN JACK DOYLE

CASPER, Wyo.—The Casper Moose have signed Jack Doyle and Willie Hope of Denver for the main event of their boxing show, which will be held here March 15.

WILL NOT ENTER

BOLDELL, Colo.—Granville Johnson, wrestling coach at Denver university, notified Walter Franklin, student manager, that the Denver school would not enter a boxing team in the dual match between Denver and Colorado at the armory here. No reason for the action was stated.

Sandcrabs On Field In Cuero Training On 1923 Ball Nine

CUERO, Texas, March 7.—The expeditionary forces arrived safely and camped this afternoon at 3 o'clock and began getting ready to get down to work early in the morning at Forbes park.

The forces were met by a delegation of officers, headed by Manager Pat Newman, the San Antonio tin man, who had had heat even the early birds into camp. Don Brown, the old boy who could outwork over 50 men last year in Gulfview's center pasture, was the only veteran to show up ahead of the expeditionary forces. The other players here were Fred Schraub and Richard Collins, two rookie pitchers, who have ambitions of landing regular jobs.

Following the skipper, there are team players in camp tonight, Mike Glaser and Priemuth, having received the delegation that left yesterday morning. Newman arrived yesterday.

PAST HUMANS' MEET

CHICAGO, March 7.—The world's greatest human meet this summer, the spring classic of the age, the Chicago Canadian track star, will be held at Chicago, Ill., on August 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 1923. The meet will be held at the Chicago Canadian track, which is the only track in the world that has been built for the purpose of holding a world's human meet. The meet will be held at the Chicago Canadian track, which is the only track in the world that has been built for the purpose of holding a world's human meet.

Y. M. C. TEAM WITH SNAPPY RECORD

ALBANY (Ga.) BASKETBALL TEAM, WHICH IS CLEANING UP THREE STATES. LEFT TO RIGHT: PRYSE, McFARLAND, HARRY, JOE SMITH, HESTER, MALONE, WHITING, SKIPPER SMITH, MOSELEY, DAVIS.

ALBANY, Ga., March 7.—Association title for three states is claimed for the local Y. M. C. A. basketball team, which cleaned up every other "Y" quintet it could meet in Georgia, Florida and South Carolina.

The team did not confine itself to Y. M. C. A. competitors. It took on every team it could schedule, including colleges in Indiana and the three states above mentioned, athletic clubs, etc.

After dropping four games at the beginning of the season, the Albany

Noted Scrappers May Take Whack at One Another This Spring to Keep Their Hides in Shape for the More Stringent Ring Grinds

NEW YORK, March 7.—Benny Leonard, lightweight champion, is planning to expose his chin several times or more this summer if the exposure will draw enough money.

Mickey Walker, the welterweight champion, and Lew Tendler, the Philadelphia lightweight, are almost sure starters against Leonard for the two big outdoor shows and Rocky Kansas, the Buffalo scrapper, also wants another crack at the title. Kansas is one of the very few legitimate lightweights in the class and his record ought to make him eligible for the first chance at the crown.

The Buffalo boy has beaten everyone in the class, but the champion, right when they were going at their best, Kansas won from Willie Jackson, Ritchie Mitchell, Lew Tendler, and Charlie White. He whipped Leonard for ten rounds in a 15-round fight in Madison Square Garden and later at Benton Harbor he had to quit for a broken arm.

Mickey Walker, another of the "saucy first" champions, is going to do as much fighting as possible this summer—out of his class. Unless the boxing commission gets after him, he will not come within seven city blocks of George Wade or Dave Shale.

Arrangements have practically been completed for bouts with Benny Leonard and Lew Tendler, and Walker expects to make \$150,000 out of these two starts.

If William Muldoon is not decapitated before summer he may force Walker and Joe Lynch to defend their titles. Lynch can't dodge Carl Tremaine very much longer.

Johnny Wilson is getting ready to return to the ring. He has been matched to meet Billy Shale in Boston and it is understood that the New York commission will lift the suspension on him.

Jack McCalliffe, the Detroit "scorpion," has run out on Tommy Gibbons and Gibbons has no one to fill a bill with him in Madison Square Garden on March 15. Tex Rickard wants to get Harry Greb for him, but Greb is hard of hearing.

Two Umpires Remain Unsigned in the Texas League, Says Roberts

DALLAS, Texas, March 7.—J. Monroe Sweeney, protégé of Ernest W. Quinley, and Jack O'Toole, veteran of many leagues, are the only unsigned umpires of the Texas league staff, according to announcement made by J. Deak Roberts, president of the league, today. Jack Daly forwarded his signed contract last week.

The veterans of last year now signed are Roy Brashers, Jack Daly, Harry Kane and Louis Weir. In addition, J. F. O'Hearn, J. Fanning and a former West Texas league umpire have been signed.

The league will worry along this year without a chief of umpires. This position has been held by Paul Senf, now in the National, and last year by Hunter R. Hill, both of whom were regarded what was really an honorary title because of long association with the league. As none of the present umpires have had a long period of service in the loop, there will be no chief of staff.

ANOTHER SWIMMER

SYDNEY, March 7.—The islands of the Pacific ocean, whence came the great Duke Kahanamoku, have produced another great swimmer. Already he has shattered one of Norman Ross' world records and he promises to be a rival of Johnny Weissmuller for tank honors.

Alan Charlton, the new swimmer, is an Australian lad, like Weissmuller, but a boy—just 16 years old. In the 500-yard event he traversed the distance in 11 minutes 5.15 seconds. This performance beat by 15 seconds the tank record set by Norman Ross in Chicago in 1919.

HEAR DECISION SOON

Within a few days Judge Landis is expected to make his decision on the eligibility of Rube Benton, former Giant pitcher, who has been sold to Cincinnati subject to his being declared eligible for the majors. Benton has been accused of having advanced information on the plot culminating in the 1919 world series scandal. He denies it.

For the past two years Benton has been playing with the Cubs in the American Association.

BEAUMONT GETS INITIAL SCRAP IN FAST GAME

Port Arthur Loses After Hard
Battling

Special to The News.

BEAUMONT, Texas, March 7.—Fighting against an unconquerable foe, Port Arthur's high school eagles went down in defeat here, last night, in the initial scrap of a three-game series for the championship of the Six-City League. Beaumont hit won the opener 18 to 10.

Coch Kennedy's proteges played a stellar role of basketball, and led the field from the start of the game. The first period ended 12 to 5, with the Port Arthur contingent fighting like demons.

Port Arthur staged a comeback in the latter half, but it fell short of a win, and while the Beaumonters were held to only 4 additional points as compared with the 7 pointers, the visitors gathered up the boys from the port failed to spur on enough ahead to tip off a scalp.

Hebert and Brook played the most consistent ball for Beaumont, and worked like a team to nip off baskets, while Crow and Hyde did the only unusual work for the visitors. Culp and Sullivan, the goalers for Port Arthur whose work usually is the brilliant feature of play, presented by Coach Leo Smith's five failed to get in action last night, and neither could find a clean basket.

Port Arthur worked hard; very hard, and exhibited an unusually good defense on the "Y" court, but not enough to prevent the victory from staying here. It was easy to see that the Beaumont team's consistent attack was carrying the game beyond the reach of Port Arthur's fire, and that the Kennedy list would be a hard number to beat.

Although Port Arthur's loggers creditably defended their honor in the clash, they were facing an unconquerable foe and it was natural that they lost. If the Beaumonters enter the remaining games of the series as they played last night, Port Arthur must bring something stronger or along than the game they put up here last night to top the championship trophy offered by a local newspaper, and the title of the league.

It is probable that a game will be staged in Port Arthur during the series if the boys from that city can top the second clash of the contest here next Tuesday evening, although no definite arrangements to this effect have been made thus far.

Beaumont (16) Pos, (10) Pt. Arthur Brook forward Sullivan forward Hebert center Ilesias forward Culp forward Bourgeois guard Hyde guard Substitutions: Beaumont, Cooke, Port Arthur, Carrothers, Walker. Field goals: Brook 2; Deering 1; Hebert 1; Ilesias 1; Culp 2; Hyde one. Foul goals: Hyde 2; Brook 6. Referee: Conaway.

A WEALTHY 'HOPE'

PALO ALTO, Cal., March 7.—Marshall Hale, Jr., son of a San Francisco millionaire, is being touted by Hank Templeton, Stanford university coach, as a future rival for Charlie Paddock.

This is Hale's first appearance in varsity athletics and he will be used in track meets this season as Stanford's star sprinter.

His best time is being kept secret until he has had a chance of making a public appearance, but Templeton predicts he will be next in line as heir to Paddock's throne.

GULFERS LEAVE THURSDAY FOR DALLAS GAMES

Will Play Triangles En Route
To Meet

Last receipt of telegraphic communications from Dallas yesterday afternoon, Manager J. M. Pickett of the Good Gulf basketball team announced that the team would leave here Thursday to participate in the Southern Amateur Athletic Union Basketball tournament which will be played in Dallas Friday and Saturday of this week.

The team has been training hard for their expected encounter on the foreign field, and Coach "Tobin" Forbes is carrying with him a crew of husky

players whose fame has spread all over this section of the country this season.

En route to Dallas, the Gulfers will stop at Houston, Texas, Thursday night, where they clash in their third game this season with the Triangles of that city. The Triangles nipped off the first game on their own court after the Gulfers had swamped Rice Institute; the second game was played in Franklin gym here, and went to the local boys by a good margin; it also went down as one of the hardest games seen here this year, and the same is to be expected in the saw-clash Thursday evening.

At Dallas, "Tobin" Forbes players will face the cream of the Southland; the pick of basketball squads from Texas, Oklahoma, Arkansas and Louisiana will be present. The Gulfers will have their hands full, but they are going into the fight with determination to win—at least to get for a long distance.

New Yorkers are so honest that when a movie with 100 inside caught fire 300 got their money back.

JAPS OUTFOXED AMERICANS ON DOG QUESTION

Players Buy Canines As Trip Souvenirs

By WAITE HOYT

When it came to baseball, we had no trouble outfoxing the Japs, but how they outfoxed us on the dog question.

Leaving Japan our party was augmented by 25 dogs, most of them high-priced chows. Every fellow on the trip bought one or more of the famous breed.

It was the intention of the players to give some of their friends a chow dog as a souvenir of the trip. While we said a plenty for the dogs, the price in no way compared with what they bring in this country.

At the last report only four of the dogs were still alive and one of them was mighty sick. In fact, so sick that Freddie Hoffman, its owner, was forced to place the chow in a dog hospital in San Francisco while he proceeded home.

When it was all too late we were told reason why 21 of the dogs failed to survive the ocean trip. The fate of most of the dogs had been sealed before we even got them out of Japan.

The Japs desire to keep up the price on chow dogs by making the species rare. The chow dog is regarded as very delicate as to constitution, but it's my belief that many of the deaths are caused by the feeding.

The Jap breeders of the chow dogs never refused a sale, and often cut the price considerably to put over the transaction. In practically every case after having a dog it was necessary to let it remain in the kennel until we were ready to take it aboard ship. There was the rub.

After leaving Japan we were told that usually the dog was fed a certain concoction that after a time caused great suffering and usually death. It was alleged that the Japs would take a heavy wire of bamboo, bend it over, cover it with cotton and then tie it with a strong thread. It was then placed in some rice and fed to the dog. The story goes that as soon as the thread is broken, the bamboo stick springs open and ruptures the intestines of the dog.

It is a fact that every one of the 21 dogs that died suffered in exactly the same way. Every possible attention was given them but not a single one rallied.

Yes, sir! Those Japs didn't make much trouble for us in baseball, but what a trimming they gave us on the dog question.

Married Couples Barred in Pueblo School Society

PUEBLO, Colo., March 7.—Because their examples offer "unwholesome suggestions" to other pupils, married students are now barred from participating in the social life of Pueblo's north side schools.

This action was taken by the north side school board Thursday, when a resolution carrying the order was adopted.

Divorced students are also excluded from the social activities of the schools by the same order.

Situations among Central high school pupils, recently brought about this action, after an investigation by the board, one official said.

The board did not explain its reasons for the order beyond the statement in the resolution that "the examples set by the married students offer unwholesome suggestions to other pupils."

The board also ruled that in the future all pupils who marry will immediately leave school by request.

Henry T. Allens, 3 in Number, Come Home From Rhine

NEW YORK, March 7.—Major Gen. Henry T. Allen, commander of the American army of German occupation, came home on the steamship George Washington Saturday, the last of America's generals to return from the World War.

With him came his wife, two more, Henry T. Allen—his son, a captain of cavalry, and his grandson, born of the Rhine 15 months ago to Capt. Allen's Rhine wife, a nurse.

For the first time since Gen. Allen went with Pershing's column into Mexico, March 17, 1916, he was attired in multi and wore spurs. He said the calves of his legs felt "very airy" in the unaccustomed garb.

Modified prohibition—allowing the troops light wine and beer—Gen. Allen declared, had proved most effective in maintaining discipline.

Gen. Allen said he could not see that the lesser intoxicants had done his men any harm.

Policeman's Wife Kills Masher Who Ignored Warnings

KANSAS CITY, Mo., March 7.—Mrs. Frank Merritt, 29 years old, wife of a policeman, shot and killed Ralph Schell as he stepped from an automobile in front of a filling station here, according to a statement made to police by Merritt.

Schell formerly was a member of the police department.

The slain man had repeatedly annoyed Mrs. Merritt and had been warned to cease paying her attention, Merritt further stated.

Mrs. Merritt collapsed after the shooting and was taken to a hospital, suffering from hysteria. At the time of the shooting she was carrying her 5-year-old son in her arms.

America Holds Winning Hand For National Games This Year

By BILLY EVANS

In baseball the United States has always been supreme.

Baseball is the national pastime, and naturally no other country boasts ball players nearly so proficient.

In the fight game our country also has a decided edge. With very few exceptions, the foreign champions to invade the United States have met with disaster.

Baseball and boxing are peculiar to the United States, therefore it is to be expected that this country should retain supremacy.

In two other sports possessing an international flavor, tennis and golf, the United States has been making rapid strides.

Once upon a time, not so many years ago at that, the British Isles held the golfing world in its hands.

Few players compared with the experts from over there.

A similar condition existed in tennis, with Australia, an English possession, giving with the mother country for supremacy.

How things have changed!

Just at present the United States holds a whole of a hand in tennis and golf circles—four kings and a queen—a mighty tough combination to beat.

There is king Walter Hagen, who invaded foreign shores and won the British open—the last world in golf competition over there. One of the greatest fields gathered together comprised the entry list.

Gene Sarazen at Skokie captured the national open, the golfing classic of the United States. The very cream of the golfing experts opposed Sarazen.

In tennis, Bill Tilden, in the Davis Cup matches, the world master of the court game, demonstrated beyond a doubt that he had an edge on the field. Tilden is the outstanding tennis player of the world.

For the national amateur, staged at Brookline last year, Britain sent some of its best. Jesse Owens, Yale collection, showed the way against the stiffest kind of competition.

Last, but not least, could that remarkable young player, Miss Gussie Coletti, who captured the women's national event. In the finals, Miss Coletti was opposed to Mrs. Gavin Platt, one of England's best.

All the more interesting is the fact that America's five champions—four in golf and one in tennis—are home-breds.

TRAINING FOR—CHESS MATCH

Chess isn't usually considered an athletic game, but Edward Lasker, challenger for the chess championship of the United States, thinks it is. Here he's seen (right) fencing with Harry Berkman at Chicago in preparation for his chess "bout."

FORM TEXAS LEAGUE

MARSHALL, Texas, March 7.—The East Texas will have a baseball league during the coming season now seems assured.

The organization of a league which will include the cities of Marshall, Mount Pleasant, Longview and Jacksonville will be completed at a meeting to be held on Tuesday in Longview, according to the statement made today by E. E. Munsell, a Longview baseball man, who came to Marshall to confer with local baseball fans.

PLAY FOR TROPHY

GALVESTON, March 7.—Play in the qualifying round for the trophy which has been put up by D. H. Kemper will start today at the Galveston Golf and Country club, according to H. T. Witherspoon. Play in this round must be concluded by Saturday.

The lowest thirty-two medal scores will be taken and a tournament will be played between them. It is expected that approximately fifty golfers will participate in the qualifying round which starts tomorrow.

Play in the tournament for the trophy will start Sunday and must be completed before April 4, at which time the state tournament will be held.

THEY WANT ATHLETES

Boulder, March 7.—Realizing that much valuable athletic talent is not coming to the University of Colorado because of an inability to secure jobs with which to help pay their way through school, the associated students have organized an athletic employment bureau, and will take care of the matter in the future.

Good to the last drop

I should say it is! I could tell a cup of Maxwell House blindfolded. What else could have such aroma, such flavor, such uniformity!

MAXWELL HOUSE COFFEE

Port Arthur Scouts Clash Tonight For Benefit of Parents

Port Arthur Bay Scouts gather in Franklin grammar tonight to battle out the fourth games in a series of fights conducted by the local Scouts for championship of the city organization.

A living cup is to go to the winner.

The games tonight, as announced recently, will start promptly at 7:15 o'clock, the clashes being planned for this evening for the benefit of the parents.

NEW BALL LEAGUE

SALT CREEK, Wyo., March 7.—This section of the state will have a new baseball league this season, according to local prominent sportsmen. It is planned to form a six-team league with teams entered from as many different oil camps in the Salt Creek field.

TAKE THIRD PLACE

ATLANTA, March 7.—Mercer university of Macon, Ga., won third place in the southern intercollegiate basketball tournament here by defeating Georgia Tech 30 to 20.

TEXAS BEATS AGGIES

AT ST. LOUIS, March 7.—Texas University defeated Texas A and M College 18 to 12 in the former's last conference basketball game here last night.

TWO PLAYERS SIGN

NEW YORK, March 7.—Two Brooklyn regulars, Pitchers Leon Cadore and First Baseman Ray Schmandt, have signed 1933 contracts.

NEW PHILADELPHIA, O., March 7.—James Ripe, high school athlete, and Frank Spelback have started for Spelback's home in Alaska, where they will spend two years, hunting, trapping and exploring.

WM. WRIGLEY, JR.

The Famous Chewing Gum Manufacturer, says:

"Throughout my business career there has been ONE THING that has never failed me, and that is ADVERTISING. . . . If I had to sum up in just a few words the reason why advertising has done so much for us I would say this:

"WE GAVE ADVERTISING A CHANCE"

That's just the big point—Are you, Mr. Business Man, giving advertising the right chance it deserves in increasing your business? No sane man, in these days, can possibly question the wonderful power of advertising, if properly and regularly applied to his business. Should it not, in some cases, prove profitable, IT IS NOT THE FAULT OF ADVERTISING and he would better look quickly AND CAREFULLY into the cause and correct it.

No business grows beyond the ambition and effort made by the man at the head of it.

The NEWS is a POWERFUL advertising medium.

The sheik is quite a classy man
Who lives in other lands.
Perhaps he is the guy who made
The "footprints on the sands."

ADVENTURES OF THE TWINS

The first was a man on stilts, outing his lunch out of a bird's nest. Now that the Twins were just the fiery mountain and over the wide, wide river, they went on toward Jack Straw's domino house again. It was so near now that they could see the double five where the door was. But their adventure was not to be ended so soon, for other things were to happen.

The first was a man on stilts, outing his lunch out of a bird's nest. "Hello there!" he called down. "Who are you?"

"Nancy and Nick," said Nick politely. "Well, I declare!" said the man. "And where are you going?"

"To Jack Straw's house to put him out," said Nancy. "He's mixed up everything in Mix-Up Land and put out King Even-Steven. We're going to put him out."

"Why, he's out now," said the man. "I just saw him."

"Then we'll fix it so he can't get in again," said Nick. "We'll knock down his domino house and he won't have any place to live."

"Excuse me!" said the man, taking a large bite out of a ham sandwich. "I just found a fine ham sandwich tree and I can't think 'till I've eaten something. There! One bite gone. That's one thought! Two bites gone! That's two thoughts! Three bites gone! Now I've got an idea. I'll come right down."

"So he hopped off his stilts. "By the way, what's in your basket?"

"Eggs," said Nancy. "Ham and eggs! Fine!" cried the man. "Together we should make our fortunes. Now here is my idea. Dave Jack Straw to put his ring on his right thumb. He doesn't know it, but if he does so, everything will be set to rights again and Mix-Up Land will become Apple-Pie Land and King Even-Steven will be king."

"How do you know?" asked Nancy. "I heard the wizard who made it."

"May I go to the dance with you?" Benjamin Mogi asserts he asked his wife, Mary, when she was dressing one night.

"Certainly not! I'm going with another man, and we don't want you along," she replied according to his divorce complaint, filed in Superior Court.

TURN OVER TREE LANDS The Bogalusa Paper Company of Bogalusa, La., has turned over to the state, for technical forest management 33,000 acres to scientifically grow timber to provide a permanent raw material supply for its paper mill.

The average wife, it is claimed, needs a dozen pairs of shoes annually.

MARKETS

WALL STREET JOURNAL FINANCIAL REVIEW

NEW YORK, March 7.—Stocks today gave an impressive demonstration of technical strength in the face of professional attempts to bring about a reaction on a basis of speculative rumors concerning another advance in the railroad rate. The effort brought out in convincing style the solidity of important interest factors and that these people were still up solidly on the side of rising prices.

Time in morning it appeared as though the general list might be subject to a period of correction following an uninterrupted advance of practically a month.

The market closed irregular.

DEPORT YOUNG GLOBE TROTTER

Charlie Leaves After Four Months' Detention

NEW YORK, March 7.—Charlie Miller, who is only 13 and has been detained at Ellis Island for four months because he does not seem to be able to tell the truth with any degree of consistency, is to be sent back where he came from in a few days. This is a little town in Roumania where his father and mother live and from which they have been sending out appeals for months for their runaway son to come home. Charlie finally admitted that he had parents and an order of deportation was immediately issued.

Immigration authorities declare that Charlie is the most unusual specimen they have ever encountered. He speaks seven languages, each with the fluency of a native, and has claimed as his birthplace a dozen towns in each of the seven countries. He has traveled in Egypt, other parts of Africa, all over the old Turkish empire, Russia, Roumania and Hungary. He thirsts for adventure and goes out of his way to get it. Immigration inspectors say he will "for Confeders are money when he could get gold for telling the truth."

Charlie came to this country on the Aeropolis in April, 1932. He had been sent to Mrs. Sadie Weiss by her husband, a petty officer in the navy stationed at Constantinople. Mrs. Weiss gave bond for \$200 and put the boy in public school. Charlie then seemed fixed for life, but the routine of a school was too monotonous. He broke out on adventure again. Finally Mrs. Weiss complained to the immigration authorities that Charlie was a bad boy without hope of redemption and he was sent to Ellis Island to be deported.

Then the trouble began. Charlie began to discover his birthplace. He would say he was born in such and such a town and such a country and before the passport could be made out he would change his mind and be born some other place. At length a woman appeared who said she was a neighbor once of Charlie's mother and father and that they wanted their son to be sent to them. So in a few days he will sail for Roumania.

LAW CABINET FACES CRISIS

Cabinet Called to Discuss Adherent's Defeats

LONDON, March 7.—A full session of the cabinet was summoned today to consider the serious situation created by three successive defeats of members of the Bonar Law government at by-elections.

The set-back was discussed and it was announced the vacancy created by Sir Arthur Griffith-Boscawen's enforced resignation, following his defeat at the polls, probably will be filled by tonight.

Neville Chamberlain, brother of Austin Chamberlain, minister in Lloyd George's cabinet, probably will be appointed to the vacant post, that of minister of health.

COURT DENIES MORGAN APPEAL FOR REHEARING

AUSTIN, Texas, March 7.—The court of criminal appeals today overruled motion for rehearing in the case of Lon H. Morgan from Travis county, convicted of subornation of public funds, while chief clerk of the state treasury, and sentenced to two years.

URBAN TURTLES INTO CREEK: NONE ARE HURT

OAK HARBOR, Ohio, March 7.—More than a score of hysterical women, children and men were trapped today when an interurban car of the Northwestern Electric plunged into the Portage river as a bridge crashed under the weight of the car.

All the passengers were saved by the crew who carried most of the women and children to safety through three feet of water.

Using models seed corn costs Iowa about \$21,000,000 yearly and the habit should be easy to give up.

LAURETTE TAYLOR BRINGS NEW VERSION OF 'HUMORESQUE' TO THE STAGE THO' MORAL OF WAR IS JUST A BIT LATE

By ALBERT W. DEAN
NEW YORK, March 7.—Mama Kantor has moved up to Broadway from the Ghetto. Mama and Papa Kantor and all the noisy Kantor kids. And now Olmberg, the orphan girl who is stuck on little Leon Kantor.

Broadway rubbed its eyes when it saw Mama Kantor in her dirty gray sweater and the slattern shape that comes to a woman who bears and nurses many children. It seemed as though she had thrown her shawl about her and hurried up from the tenement just as she was.

Yet the picture that Broadway always has held of this Mama Kantor is that of Peg, the little Irish girl with a little Irish dog under her arm. Could this Mama Kantor be Laurette Taylor? The answer says so, yet Laurette Taylor is at no time evident on the stage when Fannie Hurst's "Humoresque" is being played.

Vera Gordon made a perfect Mama Kantor in the film version of "Humoresque." In life Miss Gordon is a Jewish mother, yet the Kantor kids seem to belong to Miss Taylor just as much as they did to Miss Gordon.

The magnificent characterization of Miss Taylor and a very effective stage play save the play from the inherent weaknesses of the story as dramatic material.

"Humoresque" is several years late in reaching the stage. The warphobia has subsided. We are rather reluctant to have our emotions stirred up again by all the old bogies and grim realities of the days when some were parted from their mothers.

Thus the premonitions of Mama Kantor against war all rather flat. Likewise the arguments of the son who sacrificed his career as a violinist to enlist seem rather shallow.

He points out to his mother that she fled from Russia to escape oppression and it is that sort of oppression which the war is to end.

The war is over and most of us

LAURETTE TAYLOR AS MAMA KANTOR IN "HUMORESQUE" AND AS SHE IS IN LIFE.

feel that all it accomplished was to spread the spirit of unrest throughout the world and to give politicians the opportunity for verbal fireworks.

So in the play we find that the first act which pictures the Kantor family

life and the discovery of musical genius in the youngest son is powerfully effective and the last two acts which center on the enlistment of the son fall short of the pace of the first act.

LIBRARIES OF U.S. NEGLECTED

50 Per Cent of Americans Missing the Advantages

BY BOY GIBBONS
NEA Staff Correspondent

CHICAGO, March 7.—Between community indifference and inadequate financial support, 50 per cent of the American people are missing the public library advantages they might enjoy free.

The statement is that of Secretary Carl H. Milam of the American Library Association, who has just finished a national survey of the situation on his organization's behalf.

He finds: "That only 11,000,000 of our 110,000,000 population are registered book borrowers, that few who do borrow take full advantage of their opportunities, that most libraries fall far short of accomplishing what they might, that the best equipped do not give a maximum of service, and that 14 states are without traveling libraries systems to reach rural districts."

Milam attributes these conditions to public failure to realize what libraries can do in promoting popular, and especially adult, education, and in insufficient awards to attract recruits into the library field.

"In 1876," says Milam, "there were in the country approximately 3082 libraries, with a total of some 12,000,000 volumes. Today there are 8200 libraries, not counting those of libraries of less than 1000, and a dozen of the larger ones possess more books than all of them put together 50 years ago."

"What the library situation needs is the backing of an enthusiastic citizenry, educated to appreciate the uplifting influence of books easily obtained at no cost to the borrowers."

Milam's survey included the revelation that non-fiction and business books are much more in demand today than those of immigration and romance. Speaking nationally, he says this indicates that Americans are becoming more practical.

SHERIFF DESTROYS 28 STILL WITH AN AXE

KNOXVILLE, Tenn., March 7.—George Washington with his little hatchet couldn't have done more damage than did Sheriff Taylor of Sevier county, who conducted an old-fashioned still smashing on the courthouse lawn. Twenty-eight stills were demolished. What was left of the stills was turned over to a Knoxville junk man.

MAN IN AUTO IS KILLED BY TRAIN
PLATTSBURG, Mo., March 7.—James Moore, 26 years old, was killed, and his brother, Geoffrey, was seriously wounded when an automobile truck in which they were riding was struck by a Chicago, Burlington & Quincy passenger train.

FROZEN PIPES CAUSE BLAST
MILAN, Mo., March 7.—Pipes in a range that had frozen during the night resulted in a stove at the home of Mrs. Harriet Quigley here exploding when she started a fire in it. Mrs. Quigley narrowly escaped injury from flying iron from the stove.

WOMAN HAS PET FROG
ASHTABULA, O., March 7.—Mrs. W. J. Dougherty has the queerest pet in Ohio. It's a frog. She raised it from a pollywog which she caught last August.

The proceeds of all the plays written by Queen Maria, of Rumania, are devoted to the charities of her country.

RAILROAD ENGINE CINDERS SAVED BY GERMANS, WHO TREAT THEM TO RECOVER FUEL AND MAKE BRICKS

Locomotive cinders are now being treated at special plants in German railroad centers, says the Literary Digest. The part still utilisable as fuel is separated from the slag, the former being made into briquettes and the latter used for the manufacture of bricks.

A writer in the Scientific American (New York) reminds us that Germany, once the leading country of continental Europe in coal lands, is now compelled to economize her coal to the utmost.

For some time past the several railroad administrations have been at work on projects for treating cinders in this way. Quite recently a plant has been put in operation at Eidelstedt, a suburb of Hamburg and there are plans on foot to establish fully a dozen such plants at other railroad centers where new values will be created out of waste fuel from the heating system of railroad locomotives. The process is described as follows:

"Railroad cars on sidings deliver the locomotive cinders forming the raw material for the process. (It may be added here that the railroad administration has 40 per cent interest in the plant.) A large tipping mechanism empties the cars depositing their contents upon a huge grate."

Large Lumps are Reduced
"Lumps too large in size are reduced until they pass upon the huge grate downward into pits. From these the cinders are raised by an elevator to the highest point of the plant and dropped into great revolving drum sieves and sort out the fine material (from dust to grains about four-fifths of an inch in diameter), while the coarser pieces, passing over a sliding plane into a container. Through this latter water is run at high velocity and kept in a vibrating motion by a mechanical shaker. (Clinkers, having a lighter particles or partly burned cinders and small bits of coke float on the surface and are carried off by the strong current. In this manner clinkers and cinders are separated. The coke thus sorted out passes on an endless belt transported and is quickly picked off by workmen. Collected into heaps it is ready for sale and use."

"Meanwhile the fine dust and small bits of cinders have been carried to large, rapidly revolving apparatus. Magnetized steel bands about the width of a man's hand run close to, one another around the brass drums. Upon these bands the fine material clump and dust fall through small openings in a continuous trickle. The magnetized bands hold fast the burnt-out cinders and slag; these are brushed off further on in the machinery. But the magnets of the steel bands does not affect those particles that still are combustible. These latter fall forward beyond the brass drums, being then cleaned and sifted before they are ready for further treatment."

Made Into Briquettes
"They are placed into a mixing vessel and cooked to a tough paste after pitch has been added as a cementing material. The stock hot paste is carried to revolving drums with openings about four inches in diameter. In these drums the paste is first compressed by short steel pistons, then expelled by another set of pistons. The finished product, fuel briquettes about the size of a man's fist, can soon be seen falling five at a time, steaming hot, from the two revolving drums, one at a slide that carries them into the open and to the loading platform."

"It has been calculated that thirteen plants built along the line of the Elbe at Eidelstedt would have a capacity for treating 420,000 metric tons of waste fuel. This would mean the reclaiming of 104,000 tons of good coal with an average heating value of 5,000 calories. Besides, the 68,000 tons of fine coke-dust and cinder sludge by the dry-chemical process would be used with the addition of gas-oil and pitch to produce about 91,000 fuel briquettes with a

Girl Leaps 3 Stories To Liberty in Nightie

FOND DU LAC, March 7.—After a daring escape from the women's industrial home at Tychesville by dropping from a third story window clad only in her night gown and later escaping from a suspicious taxi driver, Mrs. Marie Burns, 20, petite bobbed-haired wife of a Marquette, Mich., man, was returned to the institution. She was finally caught as she leaped from a first story car in a fur coat which she had stolen from the taxi driver.

This is the second time the young woman has escaped. After her perilous drop she made her way to a farmhouse and obtained shelter for the night and a wrap. Early Thursday she telephoned to this city for a taxi. A taxi driver answered her call and met her in the road on her way to this city. When the taxi reached Wauwatosa the girl got out at a farmhouse to telephone her parents. The taxi driver had noticed the 16-foot story gap and told the farmer to call the chief of police at Wauwatosa and tell him to be on the look-out for the taxi and the girl.

The taxi driver returned to Wauwatosa with the girl, but when he went into the police station the girl fled. The girl told the driver's fur coat and also his wife's hat. After a 24-hour search the girl was finally found at Wauwatosa when she jumped out of a box car of a slow moving freight.

The proceeds of all the plays written by Queen Maria, of Rumania, are devoted to the charities of her country.

ORIENT ROAD GIVEN RATE ADVANTAGES

AUSTIN, Texas, March 7.—The Orient railroad of West Texas was given rate advantages for shipment of beef cattle and livestock, ranging from 3 1/2 to 6 cents per hundred pounds, by an order of the state railroad commission, effective March 31, and to remain in effect until next September 30.

The railroad commission published a schedule of differential rates to apply in favor of the Orient. The entire amount of the increased differential, when applying on the Orient and another line, will accrue to the Orient road, the order directs.

Boy Gets Fortune From Grand Parent

WASHINGTON, March 7.—Gilbert Gates, 17, a house page, learned Wednesday he was heir to \$10,000 from the estate of his grandfather, J. C. Gates, of Rockford, Ill. He immediately laid plans to capitalize his inventive genius. He wants to manufacture an invention he has already patented to remove wall paper.

Of the 572 occupations listed in the recent census only 25 failed to show the employment of women.

Sulphur Soothes Ugly, Itching Skin

The First Application Makes Skin Cool and Comfortable
If you are suffering from eczema or some other torturing, embarrassing skin trouble you may quickly be rid of it by using Menthos-Sulphur, declares a noted skin specialist.
This sulphur preparation, because of its astringent properties, seldom fails to quickly subside itching, even of fiery eczema. The first application makes the skin cool and comfortable. Rash and blotches are healed right up. Rawles Menthos-Sulphur is applied like any pleasant cold cream and is perfectly harmless. You can obtain a small jar from any good druggist.—adv.

Tut's Pain-Law

Here's the latest picture of Akheton, father-in-law of King Tutankhamun. Original is a stone image in the Metropolitan Museum, New York. "I'm proud of Tut," says Akheton. Akheton's signet ring is shown below Akheton's picture.

FORGET JAILED WOMAN: SHE FASTS FOUR DAYS

PHILADELPHIA, March 7.—When Police Lieut. Lawson opened one of the cells in his station house, he was greeted by an angry woman, who shouted in a powerful, but paralyzing voice: "My Lord, man, where've you been?"

On investigation, the lieutenant learned that the prisoner, Mrs. Elizabeth Perry, had been arrested, placed in the cell and forgotten. She had had nothing to eat or drink for four days. Mrs. Perry was charged with intoxication. After her name on the station house slate was written "to be discharged," but the words "to be" accidentally were rubbed off. Consequently, no one had looked into the room.

RECLUSE LEAVES \$31,250

HAMMOND, Ind., March 7.—A total of \$31,250 in \$5 and \$10 was found concealed in old clothing, tin cans and nooks and corners in the home of Henry Jones, 61 years old, who was found dead here. He had been a recluse since the death of a sweetheart more than 30 years ago.

CZAR'S JEWELS IN PITTSBURGH

Mysterious Trio Digs For Gems After Report

PITTSBURGH, Pa., Mar. 7.—City, county and federal authorities here are curious as to whether the Russian crown jewels are hidden in Pittsburgh. The problem confronting the authorities is whether the jewels still are here or whether one of the members of the "smugglers' band" "cheated" on his comrades and escaped with them. The gems are reported to be worth between \$4,000,000 and \$5,000,000.

Michael O'Hagan, formerly chauffeur for a prominent official is believed to know considerable about the buying of the supposed jewels here. O'Hagan has vanished. A day or two ago three mysterious strangers visited the home of Mrs. Norman W. Watkins, in Wexvase, a suburb, and forcibly went down in the cellar.

CELEBRATES 81ST BIRTHDAY

COTTONWOOD, FALLS, Kan., March 7.—J. D. Taylor, now the oldest resident here, celebrated his ninety-first birthday anniversary recently, with his seven sons attending.

Federal authorities will make a further investigation.

Deutser

Will Close Our Old Store in a Few Days

Mr. Deutser has just returned from the eastern markets having bought a new and complete stock of merchandise for our new store.

His orders this morning when he came in were to get rid of the remaining stock in our old store. So we have again reduced everything in this store.

Prices Have Been Cut Again and Again, But Never So Low as Now

If you will visit this store tomorrow you will readily see what we mean by saying that prices have never been so low as they are here now. Only a few days remain for us to stay in this old store building and so you see that it is absolutely compulsory for us to get rid of the remaining stock.

Come Tomorrow

Deutser
